

Health & Safety (Academies)

Service Level Agreement 2022/23

Introduction from Service Lead

Dear Headteacher, Chair of Governors and School Business Manager

Welcome to the Service Schedule for Health and Safety, which contains all the information you will need to know about our service.

The schedule is split into two parts; one for the core provision which is charged as an annual rate based on your pupil numbers and the other is for enhanced services which are payable through a 'Pay as You Use' rate.

We are always keen to work with our customers to meet their specific needs so please let me know if we can assist in making the service more bespoke to your School.

Changes to the Schedule includes:

- Contact details amended.
- Price changes on additional services reflecting staff cost rises.

We look forward to working with you.

Carol Fox
Occupational Health Safety and Wellbeing Manager

Description of our service

The Health and Safety Team provides a range of professional health and safety services that enable schools to comply with their statutory duties. These are offered as a core service or through an enhanced service, such as the 'pay as you use' service.

The Health and Safety Team will support the client in fulfilling their statutory requirement for the provision of *competent persons** within the organisation to comply with the Management of Health and Safety at Work Regulations 1999.

**NB: As an employer, under the Management of Health and Safety at Work Regulations 1999 (Reg 7) you must appoint someone competent to help you meet your health and safety duties. A competent person is someone with the necessary skills, knowledge and experience to manage health and safety.*

The Health and Safety Team are committed to providing a high quality, comprehensive health and safety service to ensure that organisations comply with all aspects of Health and Safety Legislation.

All organisations with 5 or more employees are required by UK law to have:

- *A documented health and safety policy*
- *Documented risk assessments for all significant hazards*
- *Access to competent health and safety advice (either internally or by using external health and safety consultants)*
- *Documented arrangements for the planning, organisation, control, monitoring and review of health and safety arrangements (i.e., a health and safety manual)*
- *Adequate health and safety training for managers and employees.*

We provide a friendly, accessible, professional service. The team are highly qualified across a wide range of health and safety areas including: CMIOSH (Chartered Membership Institute of Occupational Health), IIRSM (International Institute of Risk and Safety Management), Grad IOSH, Chartered Institute of Environmental Health, BSc Applied Chemistry, Diploma in Pollution Control, NEBOSH Diploma, MSc in Occupational Health and Safety Management and Asbestos Proficiencies.

Additionally, we have access to other areas of expertise that we can draw upon including the Council’s legal, occupational health, human resources, property and planning and other support services as appropriate.
