A Story for Nursery Children

Jack goes to Nursery.

Sometimes he likes it, sometimes he doesn't.
Sometimes the work is easy and sometimes the work is hard.

Jack's Mum and his teacher want to help Jack to feel happy at school.

They asked an Educational Psychologist to come to Nursery to see Jack.

The Educational Psychologist came to see Jack. She had a big smile and her name was Emma.

She watched Jack play with his friends.

Then she asked Jack to come to talk to her. This was okay because Jack's mum and the teachers knew Emma.

Emma had a big bag with lots of exciting toys inside!

Emma and Jack played together.

Sometimes Emma wrote things down but mostly she played.

Jack had lots of fun!

When they had finished, Emma talked to Jack's mum and his teachers and they thought about ways that they could help Jack to learn and play.

Then it was time for Emma to go.

Emma said goodbye and that she might visit Jack again. She said that next time the visit might be at Jack's house.

Jack was excited! He would be able to show her all of his toys at home and his mum and teachers are helping him to be happy!
